# BUILT TO BE UNBEATABLE

Built to be unbeatable, stunning form meets spectacular functions in this adrenaline-fuelled ride. Turn heads and wow everyone as you take on the road ahead with the Fortuner GR-S.

# BUILT TO EXPLORE

Get ready to conquer the roads or the hills or wherever else your journey takes you. The adventurer inside you will be glad you chose a worthy companion.

9" Infotainment System

Cruise Control

## BUILT TO TURN HEADS

Set out like never before. The new Fortuner GR-S is built to accompany you on any journey. Through the hillside, through the dirt, and whatever else comes your way. Create your own adventure, without limitations.

Sensual surfaces, stunning contours, and breath-taking beauty, the new Fortuner GR-S is built to be the centre of attention. The bold exterior helps you stand out from the crowd, while making sure you can comfortably keep up with them.

18" All Black Alloy Rims

■ GR Emblem on Front & Rear Bumpers

# BUILT TO BE UNSTOPPABLE

The Fortuner GR-S is unmatched in its power. Easily navigate the toughest terrains with complete ease in this marvel of modern engineering. Coupled with the latest technology to provide an experience like no other, the GR-S is a beast unleashed.

Advance Monotube Shock Absorbers

# BUILTTO PERFORM

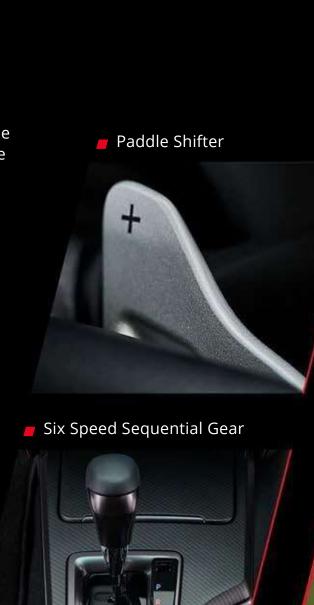

Powered by the New Generation 2.8-Litre Diesel engine (IGD-FTV), the Fortuner GR-S has had its Variable Nozzle Turbocharger and Intercooler refined for higher power and torque output while providing better fuel economy. The refinement has resulted in a +20KW power output and +50Nm torque improvement from the previous generation engine.

## POWER PACKED BUT COMFORTABLE.

The all-new Balance Shaft in the 1GD engine means that despite the increase in power you will experience fewer vibrations and reduced harshness during acceleration or while the car is stationary.

New Generation 2.8-Litre Diesel Engine (IGD-FTV)

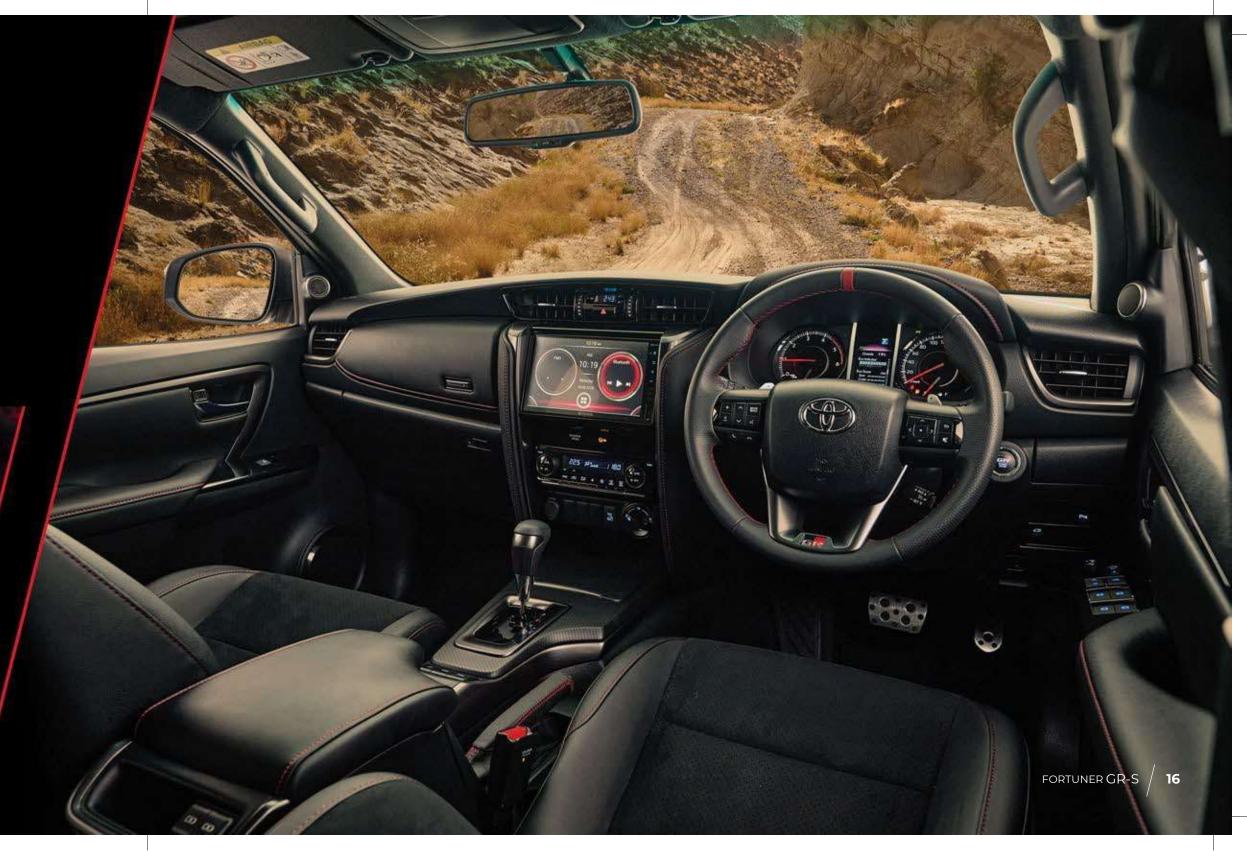

# BEAUTY MEETS THE

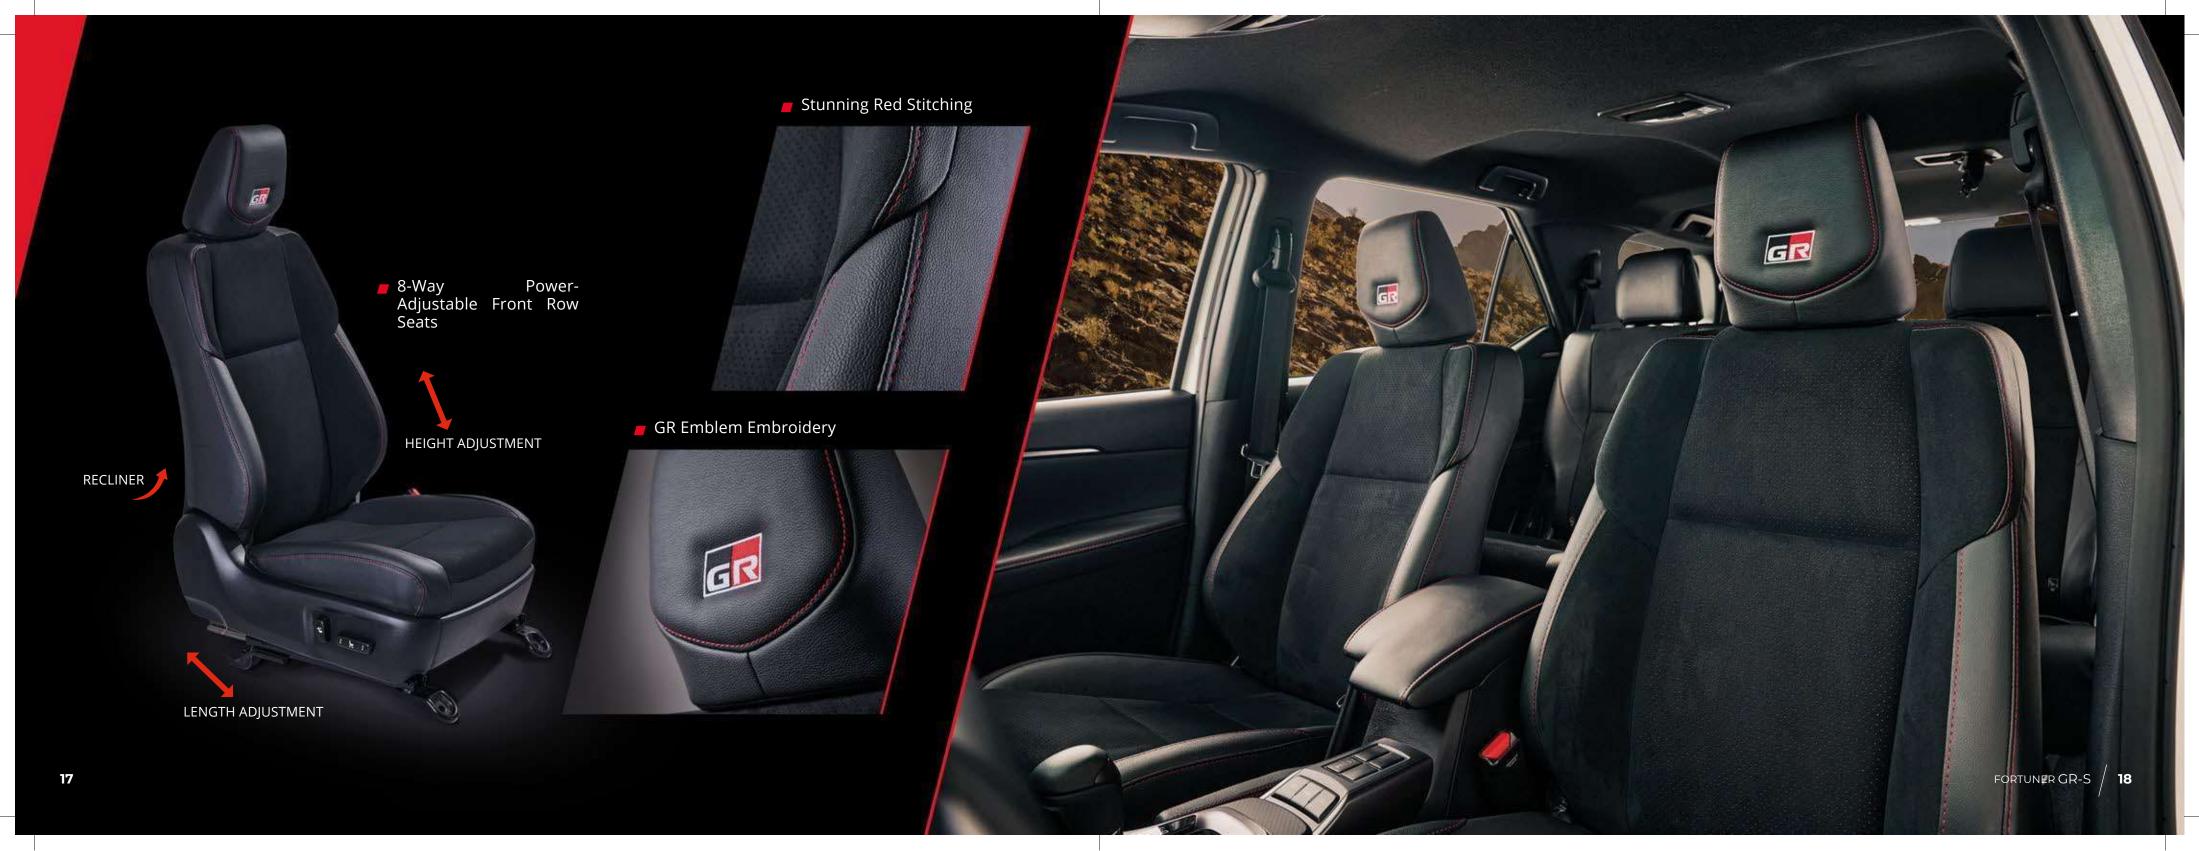

True beauty lies within. Plush new interiors combine form with function, the new sport seat made with suede and a combination of leathers lets you relax in comfort as you enjoy the stunning views around you. A shade of smoke silver metallic covers everything in sight, providing a truly unique mix of sport and unabashed utility.

Push Start with GR Emblem

GR Design Premium Optitron Meter

## **BUILT TO** CREATE ITS OWN PATH

The Fortuner GR-S has been created with adventure in mind. Perfect for both on- and off- road driving, built on a body-on-frame platform with proper 4x4 functionality, it provides a perfect mix of power with sophisticated agility. Its various off-road features enhance the driving experience, and provide unmatched control over every type of

Superior angle of approach (29 degrees) and departure (24 degrees) Superior minimum running ground clearance (279mm\*)

## Class leading 4x4 driving features:

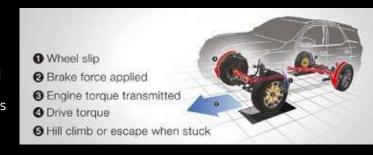

Limited Slip Differential (LSD) Hill-Start Assist Control (HAC)

A limited slip differential (LSD) keeps The Hill-assist control (HAC) feature control during extreme corners.

the power going to a drive wheel that automatically retains the pressure in the braking has traction, this ensures that you can system, ensuring that you don't roll back traverse mud and other soft surfaces unwillingly. It provides greater control and with ease. It also provides better protection when dealing with sharp inclines.

## Active Traction Control (A-TRC)

When off-roading or driving in slippery conditions, the Active Traction Control (A-TRC) provides assistance when wheel slippage is detected, helping you accelerate safely and efficiently in slippery conditions.

## Advanced Suspension

Through the double wishbone in the front suspension and four-link suspension at the rear, the advanced suspension allows drivers complete handling prowess and a greater riding experience.

## Part-Time 4WD Selector

Part-time 4WD allows the driver to turn on 4WD only when needed. On regular driving surfaces without the 4WD engaged, it works like a rear-driven 2WD vehicle, allowing for greater fuel efficiency. However, it can easily be switched to 4WD or 4WD low when sensing a slip in the wheels in the rain, sand, or mud.

## Downhill Assist Control (DAC)

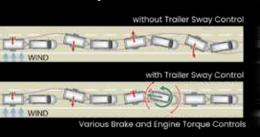

Downhill Assist Control (DAC) brakes individual wheels to maintain control and provides a safe rate of descent without any driver intervention required. It prevents the wheels from locking by managing engine braking and brake pressure, ensuring a stall-free vehicle.

## Rear Differential Lock

The Rear Differential Lock system, once engaged, ensures both the wheels spin at the same rate, and provides unequal torque to each tyre on the axle to reduce the risk of losing traction or spinning out. This is particularly helpful in muddy terrain to provide stronger grip and control.

## Trailer Sway Control (TSC)

Trailer Sway Control (TSC) ensures that you and your trailer remain safe by minimising lateral movement from road surface changes and cross winds. Tow away with complete peace of mind.

<sup>\*</sup> H2 MODE ONLY

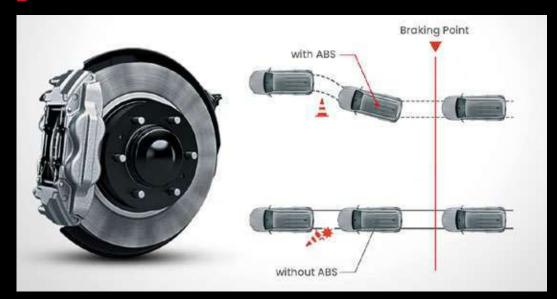

PLEASE REFER TO THE OWNER'S MANUAL FOR PROPER USAGE OF ELECTRONIC TRANSFER SWITCH OPERATION (4WD).

## BUILT TOPROTECT

## **Active Safety**

Every Fortuner GR-S is outfitted with cutting-edge advanced security features that include smart entry wireless door locking, speed sensing door-locks, an independently-powered alarm, and an immobiliser to ensure your car remains yours.

## ABS with BA & EBD

The Anti-lock braking system (ABS) allows for continued tyre rotation under extreme braking conditions.

Brake Assist (BA) applies additional braking force to reduce the braking distance.

Electronic Brake-force Distribution (EBD) helps shift weight under hard braking, reducing pressure on the wheels that carry the least amounts of weight – this helps ensure you and your vehicle always stay in control.

## Vehicle Stability Control (VSC)

The Vehicle Stability Control keeps the vehicle pointing up on slippery surfaces by braking each individual tyre, where necessary.

## Drive Start Control (DSC)

The Drive Start Control prevents acceleration when the vehicle is switched to the wrong gear, helping avoid collisions.

## Impact Absorbing Structures

The tough and rugged frame suppresses deformation of the side rails and cross members, while the body shell helps disperse impact energy in the event of a collision.

## Collapsible Steering Column

The collapsible safety steering column consists of several different components which help absorb impact energy in the event of a collision and prevent it from entering the interior of the vehicle or harming the occupants inside.

## Whiplash Injury Lessening (WIL) Front Seats

Whiplash Injury Lessening (WIL) seats reduce the risk of whiplash neck injuries in lower speed rearend collisions. It achieves this by providing support to the passenger's head and chest simultaneously.

## Pedestrian Protection Structure

The Pedestrian Protection Structure provides an Impact absorbing structure at the front section, helping to reduce impact energy directed at a pedestrian.

## EXPLORE THE ALL NEW ALLURING ANGLES

With the all new Fortuner, look at the world from a whole new perspective - a bold new dimension. The all new Fortuner does more than just capture your attention - it holds onto it.

Taut contours, soft curves, an exciting play of light and shadow; the Fortuner takes your gaze on a thrilling journey, and you will not want it to end.

With skill and sensitivity, the body designers have created a masterpiece – a vehicle which, despite its dynamism, remains the epitome of stylish, refined automotive culture. One of the characteristic features, which singles out from a distance, is its unmistakable front fascia.

Together, with details such as these, the Fortuner makes a thrilling overall impression – in both technical and aesthetic terms.

The Fortuner's side profile is significantly enhanced by its blacked-out side pillars to create the impression of a floating roof and larger cabin area. Furthermore, the side mirrors on all the models are colour-coded, auto-folding, electrically-operated and house the side indicator.

## MAKE YOUR

## PRESENCE KNOWN

Explore the strong manifestation of the all new Fortuner's sharp, aggressive yet modern, Auto-Levelling, Bi-Beam PES LED headlamp design; future inspired larger grille, and pronounced bumper intakes, giving the all new Fortuner the stance worthy only of pride.

LED Line Daytime Running Lamps (DRLs) enhance the advanced and sharp design.

The angular headlamp design has been realised by separating the turn signal/position lamp from the headlamp.

The front fascia houses the aggressive, attention-grabbing pontoon-shaped bumper, an enlarged grille and the distinctive trim for the headlights that maintains the Fortuner's identity. An integrated skid-plate further augments the already strong presence of the front.

# SUPERIOR STYLE

Explore the all new profile with 18-inch Aluminium Multi-axis Spoke Wheels and Super Chrome Metallic finish. Ready to master any dimension.

## THE STATURE

OF THE ALL NEW

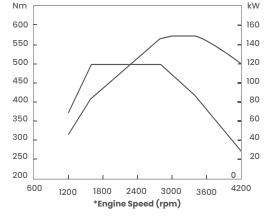

The New Generation 2.8-liter Diesel engine (IGD-FTV) has been optimally tuned for higher output and enhanced fuel economy. Refinements have been made to the Variable Nozzle Turbocharger and Intercooler, which contribute to both higher power and torque output with better fuel economy. The result - a prodigious +20kW Power output improvement and +50Nm Torque improvement from the previous generation engine.

Enjoy an exceptional 150 kW of power between 3,000-3,400 r/min and 500 Nm of torque between 1,600-2,800 r/min, for maximum drivability across a wider spread of revs from the Fortuner's renowned 2.8L turbo diesel engine\*.

Enjoy a quieter cabin, fewer vibrations and reduced harshness during idling and acceleration, thanks to the addition of an all new Balance Shaft in the IGD engine.

All Fortuner models are available with a six-speed sequential transmission with paddle shifters.

Additional smoothness has been attained through the introduction of a variable flow control power steering, which enhances the steering feel through more realistic feedback relative to the vehicle's speed and being more fuel efficient than traditional power steering systems.

The newly introduced sport mode switch not only improves engine responsiveness, but also adjusts the steering feel, to provide a more sporty feel while driving.

16

## OVER TERRAIN

Tough Body-on-Frame Construction – the Definition of a True SUV

The Fortuner has been built from ground-up to handle both driving on and off the road – built on a body-on-frame platform with proper 4x4 functionality, the Fortuner comes loaded with a host of off-road features that augment the driving experience, and provide the driver unprecedented control over all terrains.

Superior angle of approach (29 degrees) and departure (25 degrees)

Superior minimum running ground clearance (279mm\*)

Class leading 4x4 driving features:

## arailer Sway Control (TSC)

Trailer Sway Control (TSC) to keep you and your trailer safe by minimising lateral movement from cross winds and road surface changes.

## ■ Hill-Start Assist Control (HAC)

Hill-Assist Control (HAC), so that you don't need to worry about rolling back when pulling off from a sharp incline.

## ■ Limited Slip Differential (LSD)

A Limited Slip Differential (LSD)\*\* that aims to ensure maximum available traction during wheel-spin situations by transmitting power to the tyre with the most grip. This will assist the driver in traversing mud and other soft surfaces; and provides better control during extreme cornering.

\*W/O axle, 1 passenger (mm) \*\*H2 mode only

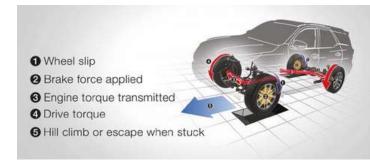

### Rear Differential Lock

The Rear Differential Lock system helps secure traction when driving in muddy terrain, or in the unlikely situation when the vehicle is stuck. The vehicle is equipped with a solenoid switch differential lock system.

## ■ Active Traction Control (A-TRC)

Active Traction Control (A-TRC)\*: When driving off-road or in slippery conditions, A-TRC applies brake pressure to prevent wheels from spinning during acceleration.

### dvanced Suspension

Advanced suspension that allows you to enjoy complete handling prowess and ride comfort, through the use of double wishbones for the front suspension and four-link suspension at the rear.

## Part-Time 4WD Selector

Part-time 4WD allows the driver to switch between 4WD, 4WD low, when sensing a slip in the wheels in rain, sand or mud, or 2WD when the priority is fuel efficiency.

## Downhill Assist Control (DAC)

Downhill Assist Control (DAC): Preventing the wheels from locking while manoeuvring extreme descents, this system simultaneously manages engine braking and brake pressure, maintaining a stall-free and stable vehicle speed.

## TRACTION APPROACH

Toyota's stepped traction strategy allows the driver to go wherever the journey takes them with confidence. With the addition of Limited Slip Differential, the Fortuner is now equipped with 5 levels of traction capabilities:

- Traction Control (TRC) is the first step this helps get you going even in 2WD. TRC will cut engine power and apply selective braking if needed.
- If more capability is needed in 2WD mode, the driver can push the TRC OFF switch to engage AUTO LSD on the rear drive wheels. AUTO LSD does not limit engine output. It enhances start-off performance by applying drive torque to the wheel or wheels that have the best traction.
- If additional traction is required, the driver can engage 4WD HIGH. A-TRC automatically operates from this point if the VSC system judges it necessary. A-TRC monitors the wheel speed sensors and yaw rate and deceleration sensors to identify wheel slip during acceleration, then adjusts the throttle to reduce engine power and increases brake pressure to each individual wheel to slow the wheel and restore traction.
- For even more traction, the driver can engage 4WD LO with A-TRC. In 4WD LO range, priority is given to engine power and rapid braking.
- If the above is not sufficient, the Fortuner also comes with Rear Differential Lock\* that is effective when driving in off-road conditions when one of the rear wheels is not gaining sufficient traction.

<sup>\*</sup>Sigma 4 variant only

# CONVENIENCE

A suite of class-leading accessibility features create our most advanced Fortuner yet.

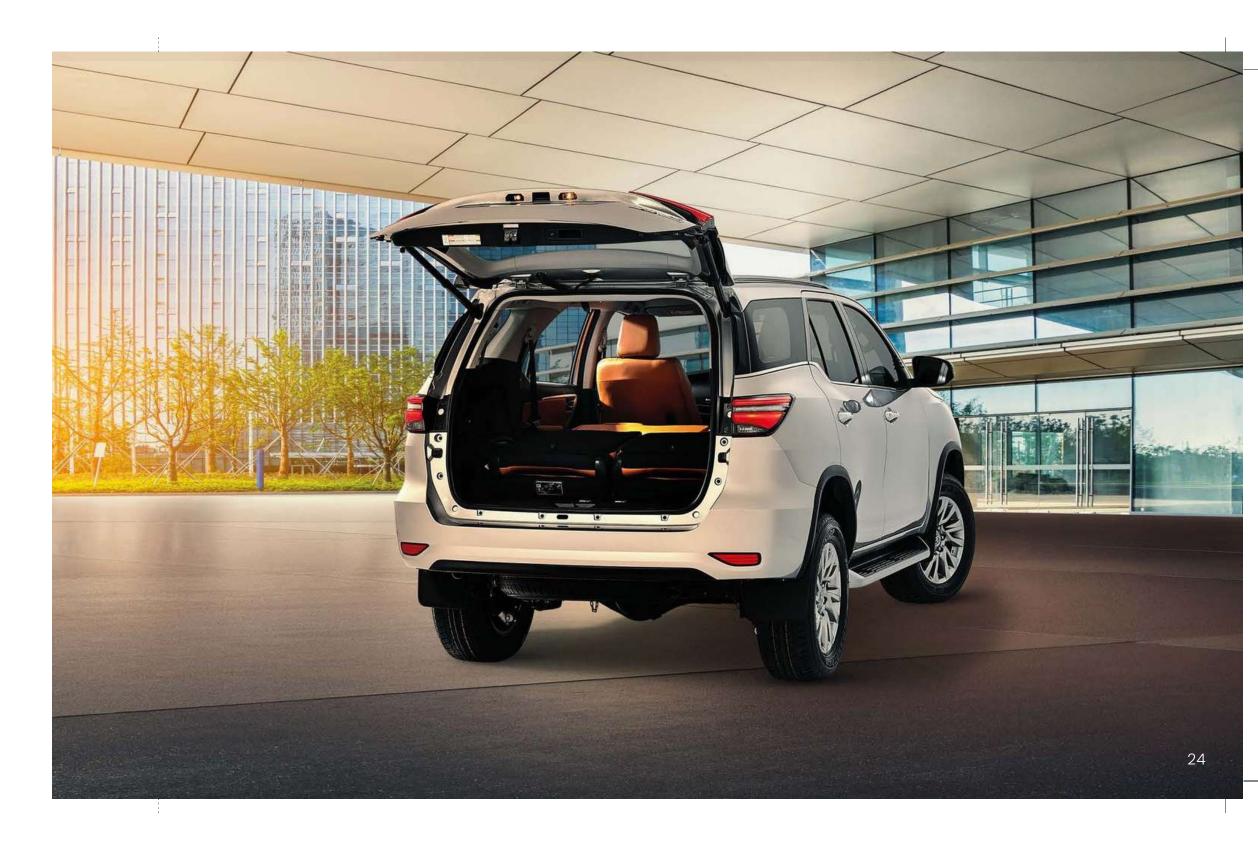

Cabin Power Back-Door Button

■ Silver Side Step

## A C C E S S I B I L I T Y

Exceptional convenience and accessibility features create our most advanced Fortuner yet.

**■**elcome LampAuto-Folding Side Mirrors

Smart Entry

## THE NEW PERSPECTIVE OF

## PRESTIGE

The rear combination lamps have been enhanced from the current model by adding surface-emitting materials to the design. This creates a distinct stop lamp illumination in the night.

■ High Mount Stop Lamp

■ Door Courtesy Lamp

Shark-Fin Antenna

## COMMANDING

## CAPABILITIES

Experience the commanding prestige of driving the all new Fortuner, with assisting key features, such as cruise control and ergonomically designed paddle shifters that makes taking command of all the power at your disposal a breeze.

The Hydraulic Power Steering has been refined with the addition of Variable Flow Control (VFC), achieving enhanced fuel economy, performance and natural steering feel that matches the speed.

## ■ VFC-specific features

Standby control for improved efficiency

Even lighter steering when parking

■eavy, responsive high-speed steering

- Dedicated off-road setting by shifting to L4, the system is recalibrated to allow the driver to obtain a better idea of how much grip the tyres have through the steering wheel, by providing a constant level of assist
   Port mode provides more responsive steering to achieve a more direct steering feel
- Cruise ControlPaddle Shifters

## UNPARALLELED

## PRECISION

The combination meters with simple graphics and integrated ornamentation ensure a high-class and precise appearance.

The driver's command center is an all-new affair that is brightly trimmed with a metallic coating and opulent satin finishes. The metallic blue dials are also newly-designed and elegantly framed by 'satin'-plated rings. The Multi-Information Display is a high-resolution 4.2 inch TFT unit with correspondingly simple, easy-to-read, graphics and provides the driver with key vehicle information, such as digital speed display, the chosen driving mode (ECO or SPORT), whether the electrically operated tailgate is locked or not, wheel alignment indication, external temp reading and other trip related details.

## BROADEN YOUR HORIZON

The technological dexterity continues with the infotainment system, which has been upgraded to an 8.95" touch screen unit, which comprises of Bluetooth, Screen Mirroring and USB compatibility, and is linked to six speakers. The screen also doubles as the display monitor for the vehicle's reverse camera. The multimedia system is also linkable to smart devices through the Apple CarPlay and Android Auto functionality. When connected via USB, both of these interfaces display the screen of the smartphone on the infotainment screen and link the phone's audio output to the vehicle's speakers. Through the use of steering wheel-mounted controls and Bluetooth phone pairing, several of the Fortuner's driving functions can be safely operated without the driver lifting a hand from the steering wheel or taking

The electrochromic rear view mirror has an auto-dimming function to reduce glare during night-time driving.

### Steering Controls

## TRUE COOLING

Discover class-exclusive climate technology with the all new automatic dual air conditioning system, vented strategically to provide effective comfortable temperature adjustment at will, offering a rare level of comfort and convenience.

Pear Auto Air-Conditioning Controls for 2nd and 3rd row seating

## DISCOVERIES

Envelop yourself in sublime comfort with the all new Fortuner's immersive seating. The dynamic, but relaxed, design aesthetic flows through every detail. Discover spacious, luxurious, refinement in the all new Fortuner's Interior.

### atitched Premium Leather Upholstery

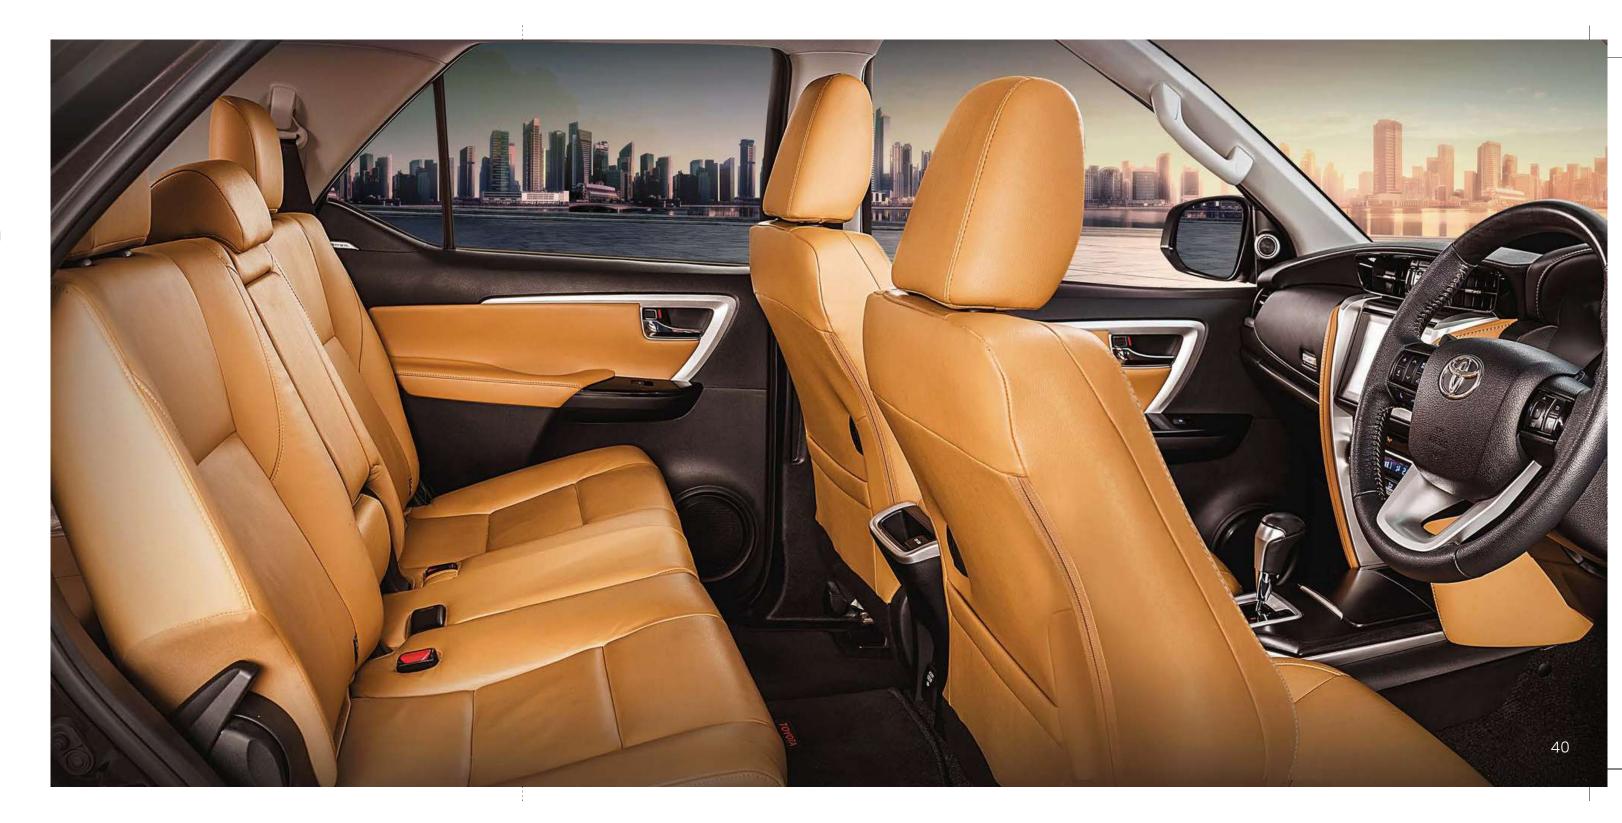

Wood Grain Patterned Ornamentation

Illuminated Controls

OF EXPLORATION

Experience the premier luxury of the all new Fortuner's seats, discover finer materials built around you, bringing form and function seamlessly together with ultimate flexibility.

The Chamois leather brings back the original prestige of fine comfort.

The seats are designed for better support, legroom and overall refined feel - the all new 8-way power-adjustable front row seats offer much more than what meets the eye.

Being a generously proportioned seven-seater, practicality comes standard, with access from the second to the third row of seats made easy with a one-touch mechanism. There are cup holders and ISOFIX child seat anchors on both sides of the second row, and seats from the third row fold up and anchor horizontally to allow for more stowage space in the load area of the vehicle.

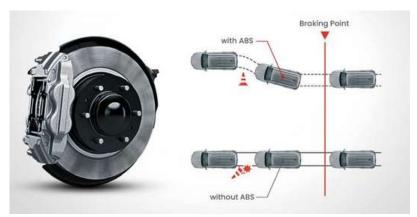

## ACTIVE SAFETY

The Fortuner experience is about staying in control at all times, providing peace of mind and prioritising the safety of your loved ones.

#### ■ ABS with BA & EBD

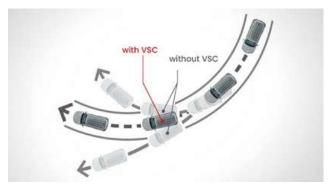

Anti-lock Braking System (ABS), whereby excess brake pressure is modulated to allow for continued tyre rotation under extreme braking conditions, where excessive pressure would ordinarily lock the brakes and induce a skid, eliminating the ability to turn and prolonging the braking distance and possibly leading to a loss of control.

Brake-Assist (BA) is the pre-emptive identification of an emergency braking situation through which additional braking force is automatically applied to reduce the braking distance.

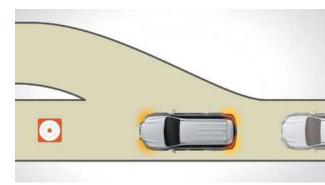

Electronic Brake-force Distribution (EBD) is a feature of the Anti-lock Brake System, which helps make up for shifting weight under hard braking. It reduces brake pressure on wheels carrying the least amount of weight, helping your vehicle stay in control.

### ■ Vehicle Stability Control (VSC)

Vehicle Stability Control (VSC) to keep you in control and the vehicle pointing straight when on slippery surfaces by individually applying braking to each tyre where necessary.

### ■ Emergency Brake Signal (EBS)

The Emergency Brake Signal automatically activates the brake and hazard warning lights when it detects an emergency stop situation after 60km/h. The lights blink rapidly 3 times to warn following vehicles that the car is stopping abruptly, reducing the risk of a collision.

### ■ Drive Start Control (DSC)

Drive Start Control (DSC) helps avoid collisions by suppressing sudden acceleration or starting off during shift operations.

45

## PREMIER PASSIVE SAFETY

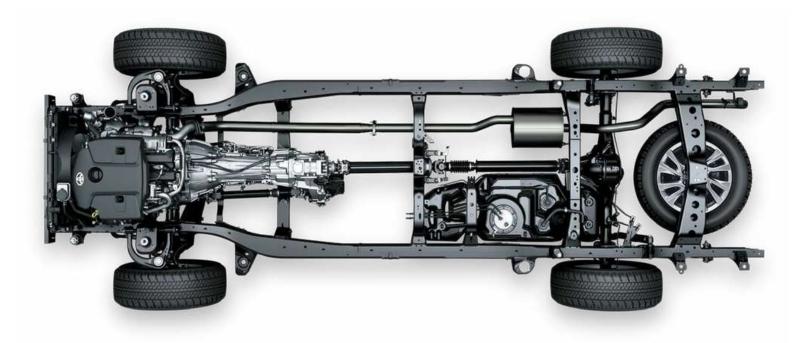

All Fortuner models are installed with advanced security technology that includes smart entry wireless door locking and speed sensing door-locks. There is also an independently-powered alarm and immobilizer to ensure that your Fortuner remains secure.

Abundant passive safety equipment and structures provide reassuring sense of security for all passengers.

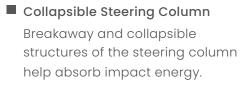

### npact Absorbing Structures

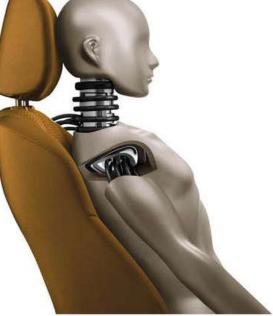

The Fortuner's frame structure suppresses deformation of the side rails and cross members.

The Fortuner's body shell structure helps disperse impact energy in the unlikely event of a collision.

Whiplash Injury Lessening Front
Seats WIL concept seats help reduce
risk of
whiplash neck injuries in lower speed
rear-end collisions.

Pedestrian Protection Structure
Impact absorbing structures of the front section help reduce impact energy directed at a pedestrian.

- GO WITH YOUR BRAND NEW TOYOTA FORTUNER

## EVERY TOYOTA IS A SYMBOL OF OUR PROMISE FOR QUALITY

At Toyota, for us our customers always come first and their safety is our top priority, which is why when our loyal customers choose to own a Toyota, we make sure that they find trust and peace of mind that they deserve. From 3 years or 100,000 km Mileage Warranty to Unparalleled Quality, from Durability and Reliability (Q.D.R.) to maintenance and grooming, Toyota ensures an unmatched level of safety with Body Reinforcements. We provide ISOFIX Child Seat Anchors and Immobilizer to ensure that every journey with Toyota is secure and satisfying. It is this level of dedication and attention to detail that has made us Pakistan's most loved, reliable and trusted vehicle.

## VALUE ADDED SERVICES

Extend your warranty to up to 5 years

Lock in your maintenance contract and stay worry-free

Avail comprehensive insurance plan for a greater peace of mind

LES SERVICE SPARE PARTS
